Independent Auditors' Report on Review of Interim Condensed Consolidated Financial Statements

To the Board of Directors and Shareholders PJSC MegaFon

Introduction

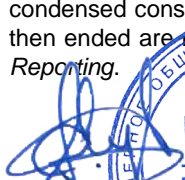

We have reviewed the accompanying interim condensed consolidated statement of financial position of PJSC MegaFon (the "Company") and its subsidiaries (the "Group") as at 31 March 2020, and the related interim condensed consolidated income statement and interim condensed consolidated statements of other comprehensive income, changes in equity and cash flows for the three-month period then ended, and notes to the interim condensed consolidated financial statements (the "interim condensed consolidated financial statements"). Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim condensed consolidated financial statements as at 31 March 2020 and for the three-month period then ended are not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

MegaFon

Notes to interim condensed consolidated financial statements

1. General

Public Joint Stock Company MegaFon (“MegaFon”, the “Company” and, together with its consolidated subsidiaries, the “Group”) is a company incorporated under the laws of the Russian Federation and registered in the Unified State Register of Legal Entities under number 1027809169585. Its registered office is at 41 Oruzheyniy lane, Moscow, 127006, Russian Federation.

MegaFon is a leading pan-Russian operator of digital opportunities and offers a broad range of telecommunication and digital services to retail customers, businesses, government clients and telecommunication services providers.

As of 31 March 2020, all of the outstanding shares of the Company are held by AF Telecom Holding LLC, a company incorporated in the Russian Federation, as to 56.32%, and as to the remaining 43.68%, by its 100% parent, USM Telecom LLC, a company incorporated in the Russian Federation. The ultimate controlling party of both AF Telecom Holding LLC and USM Telecom LLC is USM Holding Company LLC, a company incorporated in the Russian Federation, which is controlled by a group of individuals, none of whom acting alone has the power to direct the activities of the Group at his own discretion and for his own benefit.

2. Basis of preparation

These interim condensed consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*, and should be read in conjunction with the annual consolidated financial statements of the Group for the year ended 31 December 2019.

These interim condensed consolidated financial statements are unaudited and do not include all the information and disclosures required in the annual IFRS financial statements. The Company omitted disclosures which would substantially duplicate the information contained in its 2019 audited consolidated financial statements, such as accounting policies and details of accounts which have not changed significantly in amount or composition. Additionally, the Group has provided disclosures where significant events have occurred subsequently to the issuance of its 2019 audited consolidated financial statements.

The interim condensed consolidated financial statements are presented in millions of Rubles.

The interim condensed consolidated financial statements were authorised for issue by the Company’s Chief Executive Officer (“CEO”) and Chief Accountant on 26 May 2020.

3. Significant accounting policies

The accounting policies and methods of computation applied in the preparation of these interim condensed consolidated financial statements are consistent with those disclosed in the annual consolidated financial statements of the Group for the year ended 31 December 2019, except for the adoption of the revised Conceptual Framework, Amendments to IFRS 3, *Definition of a Business*, Amendments to IAS 1 and IAS 8, *Definition of Material*, and some other amendments effective from 1 January 2020 which did not have an impact on the Group’s interim condensed consolidated financial statements.

MegaFon

Notes to interim condensed consolidated financial statements

4. Transactions with own shares

On 25 March 2020 the Group sold 29.68% of the Company's issued ordinary shares with a total cost of 121,703 to a related party USM Telecom LLC for cash consideration of 121,323 (or 659.26 Rubles per ordinary share) payable by 31 March 2023. The Group recognised the receivable due from the related party at fair value which was estimated by discounting the expected cash flows using the prevailing market rate of interest for a similar instrument. The discount has been recognised directly in retained earnings in equity as the receivable is treated as a transaction with a shareholder.

5. Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker ("CODM"). The CODM is responsible for allocating resources and assessing the performance of the operating segments. The Company's CEO has been designated as the CODM.

The Group manages its business primarily based on eight geographical operating segments within Russia, which provide a broad range of voice, data and other telecommunication services, including wireless and wireline services, interconnection services, data transmission services and value added services. The CODM evaluates the performance of the Group's operating segments based on revenue and operating income before depreciation and amortisation ("OIBDA"). Total assets and liabilities are not allocated to operating segments and are not analysed by the CODM.

Operating segments with similar economic characteristics, such as forecasted OIBDA, have been aggregated into an integrated telecommunication services segment, which is the only reportable segment. Around 1.8% of the Group's revenues and results are generated by segments outside of Russia. No single customer represents 10% or more of the consolidated revenues.

Management has presented the performance measure OIBDA because it believes that this measure is relevant to an understanding of the Group's financial performance. OIBDA is not a defined performance measure in IFRS. The Group's definition of OIBDA may not be comparable with similarly titled performance measures and disclosures by other entities.

Reconciliation of OIBDA to profit before tax for the three months ended 31 March is presented below:

	Three months ended 31 March	
	2020	2019
OIBDA	36,013	35,226
Depreciation	(12,891)	(16,204)
Amortisation	(5,333)	(4,946)
Gain/(loss) on disposal of non-current assets	119	(98)
Finance costs	(10,490)	(10,202)
Finance income	1,232	711
Share of loss of associates and joint ventures	(1,492)	(1,256)
Other non-operating expenses	(526)	(281)
Gain/(loss) on financial instruments, net	1,944	(1,379)
Foreign exchange (loss)/gain, net	(1,880)	1,205
Profit before tax	6,696	2,776

MegaFon

Notes to interim condensed consolidated financial statements

5. Segment information (continued)

Disaggregation of revenue

In the following table revenue is disaggregated by major products and service lines:

	Three months ended 31 March	
	2020	2019
Wireless services	66,850	66,325
Wireline services	6,543	6,441
Sales of equipment and accessories	6,159	7,362
Total revenue	79,552	80,128

The Group's revenue derives from contracts with customers. Revenue from sales of equipment and accessories is recognised at a point in time (generally, the time of sale), while service revenue is recognised over time as the services are rendered to clients.

6. Seasonality of operations

The Group's services are impacted by seasonal trends throughout the year. Revenue and operating profits in the second half of the year are usually expected to be higher than in the first six months. Higher revenue during the period July to September is mainly attributable to increased demand for telecom services during the peak holiday season. Higher revenue also occurs in the month of December, due to increased demand for telecom services and equipment. Also the number of working days is significantly higher in the second half of a calendar year than in the first half of the year due to long public holidays in January and May in Russia, which further contributes to higher revenue in the second half of the year.

During the first four months of 2020 the level of the Group's services was impacted by "stay-at-home" orders issued by governmental authorities in response to the outbreak of the coronavirus (*Note 11*). While efforts to deal with the coronavirus are expected to continue during the remainder of 2020, the Group believes that any impact will be temporary in nature.

This information is provided to allow for a better understanding of the Group's results; however, management has concluded that these impacts on the results are not 'highly seasonal' as considered by IAS 34.

7. Property, equipment and intangible assets

Starting from 1 January 2020 the Group revised the useful lives for its property and equipment considering past experience and expectations derived from the analysis of technological trends, the Group's networks upgrade practices and other factors impacting useful lives. The revised useful lives are as follows:

Telecommunications network	5 to 20 years
Buildings and structures	5 to 100 years
Vehicles, office and other equipment	3 to 10 years

MegaFon

Notes to interim condensed consolidated financial statements

7. Property, equipment and intangible assets (continued)

The change in estimates resulted in a 5,900 reduction in the depreciation expense for the three months ended 31 March 2020.

During the three months ended 31 March 2020, the Group acquired property and equipment with a cost of 7,877 (2019: 4,915). Assets with a net book value of 185 were disposed of by the Group during the three months ended 31 March 2020 (2019: 81), resulting in a net loss on disposal of 120 (2019: loss 83). Capitalised borrowing costs were 226 and 683 for the three months ended 31 March 2020 and 2019, respectively.

During three months ended 31 March 2020, the Group acquired intangible assets with a cost of 3,616 (2019: 3,048).

8. Financial assets and liabilities

Fair values

Set out below is a comparison by class of the carrying amounts and fair values of the Group's financial instruments:

		Carrying amount		Fair value	
		31 March 2020	31 December 2019	31 March 2020	31 December 2019
Financial assets					
Financial assets at fair value through profit or loss:					
Investments in City-Mobil	Level 3	431	431	431	431
Cross-currency swaps not designated as hedges	Level 2	748	—	748	—
Other	Level 3	125	125	125	125
Financial assets at amortised cost:					
Amounts due from related parties	Level 2	118,830	16,814	118,830	16,814
Other deposits	Level 2	484	407	484	407
Other	Level 3	226	360	226	360
Total financial assets		120,844	18,137	120,844	18,137
Financial liabilities					
Financial liabilities at amortised cost:					
Loans and borrowings	Level 2	290,811	288,755	300,054	305,689
Ruble bonds	Level 1	86,512	87,003	82,403	86,263
Deferred and contingent consideration	Level 2	574	568	574	568
Other liabilities	Level 3	824	665	824	665
Financial liabilities at fair value through profit or loss:					
Cross-currency swaps not designated as hedges	Level 2	292	1,570	292	1,570
Total financial liabilities		379,013	378,561	384,147	394,755

8. Financial assets and liabilities (continued)

Loans and borrowings

In March 2020 the Group drew down from different banks 17,000 under fixed-rate Ruble-denominated facilities for terms of two years to refinance a Ruble-denominated fixed-rate loan in the amount of 17,000 which was due in 2022.

Valuation techniques and assumptions

Management has determined that cash, short-term deposits, other financial assets, trade receivables, trade payables, bank overdrafts and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The Group, using available market information and appropriate valuation methodologies, where they exist, has determined the estimated fair values of its financial instruments. However, judgment is necessarily required to interpret market data to determine the estimated fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realise in a current market exchange.

The fair value of loans receivable from related parties approximate its carrying value.

The fair values of the Group's loans and borrowings and other liabilities carried at amortised cost, except for market quoted ruble bonds, are determined by using a discounted cash flow method applying a discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own nonperformance risk as at 31 March 2020 and 31 December 2019 was assessed to be insignificant.

The Group, in connection with its current activities, is exposed to various financial risks, such as foreign currency risks, interest rate risks and credit risks. The Group manages these risks and monitors their exposure on a regular basis.

The fair values of cross-currency swaps are based on a forward yield curve and represent the estimated amount the Group would receive or pay to terminate these agreements at the end of the reporting period, taking into account current interest rates, foreign exchange spot and forward rates, creditworthiness, nonperformance risk, and liquidity risks associated with current market conditions.

During the three months ended 31 March 2020 there were no transfers between levels of the fair value hierarchy.

9. Income tax

The Group calculates the income tax expense for the period using the tax rate that would be applicable to the expected total annual earnings.

MegaFon

Notes to interim condensed consolidated financial statements

9. Income tax (continued)

The major components of income tax expense for the three months ended 31 March in the interim condensed consolidated income statement are as follows:

	Three months ended 31 March	
	2020	2019
Current income tax	1,058	2,710
Deferred income tax	489	(2,060)
Total income tax expense	1,547	650

10. Related parties

10. Related parties (continued)

Terms and conditions of transactions with related parties

Outstanding balances as of 31 March 2020 and 31 December 2019 are unsecured. As of 31 March 2020 and 31 December 2019, the Group did not record any significant impairment of receivables relating to amounts owed by related parties.

During 2019 the Group provided guarantees for obligations payable by the Svyaznoy group in the amount of up to 12,700 (*Note 11*).

USM group

The outstanding balances and transactions with USM group relate to operations with USM Telecom LLC, USM Holding Company LLC, the Group's parent, and their consolidated subsidiaries.

In March 2020 the Group sold its ordinary shares to USM Telecom LLC for total consideration of 121,323 (*Note 4*). The outstanding balance with the USM group as of 31 March 2020 mostly relates to this sale. The receivable is due to be settled on or before 31 March 2023.

In December 2019 and in March 2020 the Group made interest-free loans to USM Telecom LLC totaling 15,060 due to be settled on or before 30 June 2021 and on or before 30 June 2023, respectively. In April 2020 the Group made an additional interest-free loan to USM Telecom LLC in the amount of 6,000 due to be settled on or before 30 June 2023.

AER loan

AliExpress Russia Holding PTE. LTD ("AER") is an associated company of the Group. In October 2019 the Group received an interest-free loan in the amount of 1,921 for a term of up to 3 years from its associate AER.

Svyaznoy

Svyaznoy is the Group's associated company. The Group has a dealership and equipment sales and purchases agreements with the Svyaznoy group which qualify as related party transactions. Dealer commissions for connection of new subscribers which represent incremental costs of obtaining a customer contract are deferred and recognised in sales and marketing expenses over the expected contract term.

Garden Ring

Garden Ring, which owns and operates an office building in the center of Moscow, is the Group's joint venture with Sberbank. The Group has a lease agreement with Garden Ring which qualifies as a related party transaction. The Group recognised an asset in the amount of 6,062 (2019: 6,368) and a liability of 6,461 (2019: 6,761) in respect of the lease as at 31 March 2020. Utilities expenses in the amount of 152 were recognised directly in operating expenses in the interim condensed consolidated income statement (2019: 88).

10. Related parties (continued)

The Group also has a loan receivable from Garden Ring. The balance due from Garden Ring at 31 March 2020 consists mainly of the loan receivable. Interest income of 110 was recognised in respect of the loan for the three months ended 31 March 2020 (2019: 109).

MGL

The Group owns a 2.03% economic (26.7% voting) interest in Mail.Ru Group Limited (“MGL”) through an associated company JSC MF Technologies. During the three months ended 31 March 2020 the Group purchased software from MGL in the amount of approximately 40 (2019: 200).

11. Commitments, contingencies and uncertainties

Russian operating environment

During 2019 and the three months ended 31 March 2020, the Russian economy was impacted by significant fluctuations in crude oil prices and the value of the Russian Ruble, as well as sanctions imposed on Russia by several countries. The combination of the above resulted in a higher cost of capital, increased inflation and uncertainty regarding economic growth, which could negatively affect the Group’s future financial position, results of operations and business prospects.

In addition, the first three months of 2020 have seen significant global market turmoil triggered by an outbreak of coronavirus. Together with other factors, including a sharp decrease in the oil prices and stock market indices worldwide, this has resulted in a depreciation of the Russian Ruble. These developments are further increasing the level of uncertainty in the Russian business environment.

Management believes it is taking appropriate measures to support the sustainability of the Group’s business during the current worldwide pandemic. However, further deterioration of the economic situation may negatively impact the results and financial position of the Group. Currently it is not feasible to assess the amount of the possible impact.

4G/LTE licence capital commitments

In July 2012, the Federal Service for Supervision in Communications, Information Technologies and Mass Media granted the Company licences and allocated frequencies to provide services under the 4G/LTE standard in Russia.

Under the terms and conditions of these licences, the Group was obligated to provide 4G/LTE services in each population center with over 50,000 inhabitants in Russia prior to the end of December 2019. The Group is also obligated to make capital expenditures of at least 15,000 annually toward the 4G/LTE roll-out until the network is fully deployed.

Under the 4G/LTE licences acquired at frequency distribution auctions and from other operators via acquisition of licence-holding entities, the Group is obligated to provide 4G/LTE services in each population center with over 10,000 inhabitants in Russia by the end of the seven-year period starting from the date of obtaining the licences, i.e. prior to mid-April 2023.

MegaFon

Notes to interim condensed consolidated financial statements

11. Commitments, contingencies and uncertainties (continued)

As of the date these interim condensed consolidated financial statements were authorised for issue the Group was fully compliant with these capital expenditure commitments.

Equipment purchases agreements

In 2014 the Group entered into two separate 7-year agreements with two suppliers to purchase equipment and software for 2G/3G/4G network construction and modernisation.

The software usage agreements contain various termination options, however the Group is specifically committed under the agreements to pay at least an amount equal to 50% of the fees due over the remaining term of the agreements for each base station in use as at the date of termination. The amount of the commitments at 31 March 2020 is 6,958 (31 December 2019: 5,896).

Social infrastructure expenses

From time to time, the Group may determine to maintain certain social infrastructure assets which are not owned by the Group and not recorded in the interim condensed consolidated financial statements as well as to incur education, science and other social costs. Such activities may be conducted in collaboration with non-governmental organisations. These expenses are presented in other non-operating loss in the interim condensed consolidated income statement.

Taxation

Russian and Tajik tax, currency and customs legislation, including transfer pricing legislation, are subject to varying interpretations and changes, which can occur frequently. Management's interpretation of such legislation as applied to transactions and activities of the Group may be challenged by the relevant regional and federal authorities. Recent events within Russia and Tajikistan suggest that the tax authorities are taking a more assertive position in their interpretation and enforcement of the legislation and as a result, it is possible that transactions and activities that have not been challenged in the past may now be challenged. Therefore, significant additional taxes, penalties and interest may be assessed.

Fiscal periods remain open to review by the authorities in respect of taxes for the three calendar years preceding the current year. Under certain circumstances reviews may cover longer periods.

The Group's management believes that its interpretation of the relevant legislation is appropriate and is in accordance with the current industry practice, and that the Group's tax, currency and customs positions will be sustained. However, the interpretations of the relevant authorities could differ.

As of 31 March 2020 the Group's management estimated the possible effect of additional taxes, before fines and interest, if any, on these interim condensed consolidated financial statements, if the authorities were successful in enforcing different interpretations being taken by them, to be in the amount of up to approximately 1,275 (31 December 2019: 928).

11. Commitments, contingencies and uncertainties (continued)

Svyaznoy guarantees

During 2019 the Group provided guarantees for obligations payable by the Svyaznoy group in the amount of up to 12,700 (*Note 10*). The guarantees remain in effect for one year after maturity of the underlying obligation. The Group assesses the likelihood of its having to incur any liability under these guarantees as remote.

Litigation

The Group is not a party to any material litigation, although in the ordinary course of business, the Company and some of the Group's subsidiaries may be party to various legal and tax proceedings, and subject to claims, certain of which relate to the developing markets and evolving fiscal and regulatory environments in which they operate. In the opinion of management, the Company's and its subsidiaries' liability, if any, in all pending litigation, other legal proceedings or other matters, will not have a material effect on the financial condition, financial performance or liquidity of the Group.

Anti-terror laws

On 7 July 2016 the President of the Russian Federation signed a package of anti-terror laws. The package requires telecommunications operators to store all data, including that from phone calls, messages, and data transmitted by customers for certain time periods, effective from 1 July 2018. This requires the Group to establish additional data centers and invest in data-processing technologies.

Based on the current understanding of the law's requirements, the Group expects that the implementation of the changes may cost it approximately 25,000-30,000 over the three years beginning from 2020.
